 - ✦ Not backed by "Nature"

10 % ROI (Return on Investment)

Option-1: 5 Year Guarantee!!!

- 10 %APR Details
 - Who offers this incredible opportunity?
 - ✦ MySweetAlpaca.com
 - What is the Guarantee?
 - ✦ You will receive a 10% annual return over the five year period.
 - ✦ After 5 years, we will buy back your original herd at your cost plus 10% APR.
 - When does this start?
 - ✦ Now, and until the first 100 Alpaca's are purchased.
- Where is the Alpaca farm located?
 - ✦ Langston, Alabama
- Why are we doing this?
 - ✦ People are looking for a safe place to invest their money.
 - ✦ We know we can help!
 - ✦ Our business works better with your investment!
- How can we Guarantee 10%?
 - ✦ It's in the numbers!
 - ✦ Alpacas Breed & Multiply
 - ✦ A \$10,000 alpaca can create more \$10,000 animals.

Two OPTIONS - (Great if you live in a city!)

OPTION-1

- 5-yr., 10% APR Guarantee
 - You purchase bred female alpacas through 'My Sweet Alpaca'.
 - Dams are registered in your name as owner, but not cria.
 - ✦ Dams will be your DNA certified foundation herd.
 - After 5 yrs., we buy dams back at the price you paid, plus 10% APR
 - We keep all offspring.
 - You have no involvement in care or sales of any animals.
 - It's like a stock investment, but with a 10% APR guarantee.

OPTION-2

- You start an Alpaca Business
 - You purchase alpacas through 'My Sweet Alpaca'.
 - You keep alpacas on OUR ranch.
 - You pay us for 100% care of animals.
 - ✦ We keep you informed about your newborn cria.
 - Alpacas and cria are registered in your name as owner.
 - ✦ They will be your DNA certified herd.
 - You sell your animals and make all the decisions and price negotiations.
 - You keep all cria & herd value.
 - You pay any Medical & Transportation.
 - You get tax write-offs under Section 179 of tax the code.

HOW OPTION-2 WORKS

- Details – What you get for your money . . .
 - Peace of Mind.
 - ✦ A trouble free, worry free way of increasing your wealth!
 - How we care for your Alpacas on our ranch.
 - ✦ Security – A Special Breed Guard Dogs, “Great Pyrenees”.
 - Stay awake all night and patrol all fence lines.
 - Husband and wife both full time ranchers. Watchful all day.
 - ✦ Care, e.g. (food, water, hay, supplements, annual vaccinations, de-worming, fly control, toe nail trimming, teeth trimming, fleece shearing, poop scooping, and even special herbs for lactating mothers).

HOW OPTION-2 WORKS

- **Property**

- We have 55 acres of beautiful land surrounded by mountains near the Tennessee River in NE Alabama with 10 cross-fenced pastures and 2 ponds. A peaceful quite place where bald eagles call home.
- Ranching issues and duties . . . You can leave it all to us!
 - ✦ Maintain fence lines, tree lines, weed control, and pest control.
 - ✦ Mortgage, taxes, and insurance on farm house and 55 acres.
 - ✦ Pasture fertilizing, seeding, and care.
 - ✦ Tractor supplies, tools, and equipment.
 - ✦ Farm hand labor.
- Point is . . . You make money and leave the rest to us!!!
- If you can find a better opportunity . . . Please tell us!

HOW OPTION-2 WORKS

○ COST

- ✦ You purchase bred females . . . About \$10,000 each.
 - We help you choose the best animals for your money
 - Buy from our ranch herd.
 - Buy from another ranch. We will help you find and negotiate a good deal. You would be responsible for transportation to our ranch.
 - Care cost has three choices
 - 1) \$3.50 /day per animal – ($\$3.50 \times 365 = \$1,277.50$ per/year)
 - 2) or We deduct the care cost from alpaca sales of your animals.
 - 3) or You trade a female cria in exchange for annual care.
 - Note: Annual care cost of six alpacas and neonatal care is about \$10,000.

HOW OPTION-2 WORKS

- **MEDICAL CARE (It's tax deductible)**
 - Medical care is an added expense to you. We will keep you informed about medical needs.
 - ✦ Although we strive to minimize losses, the industry standard loss is 20%.
 - We have a licensed camelid veterinarian nearby.
 - Auburn University has a camelid department about 4-hours south for special needs, e.g. (blood transfusion).
 - We will send you a notice to pay medical bills.
 - You would also be required to pay mileage for transporting animals for special health care needs.
 - We maintain all health records.
 - All alpacas over three months old must have life insurance.
 - ✦ Cost about \$325 / year for a \$10,000 value.

HOW OPTION-2 WORKS

- OTHER CARE

- Neonatal Care - \$350 per dam –(No charge for stillborns)
 - ✦ Track Due Dates and keep watchful eye on behaviors that give clues about when to expect cria.
 - ✦ Towel Dry cria and clear plugs from mother's teats.
 - ✦ Weigh cria twice daily and track for weight gain and/or loss.
 - ✦ Insure nursing and/or bottle feed to get colostrums into cria in the first 6 to 8 critical hours. And, we perform a scientific blood test, (IgG Test), to check colostrums safe level after 24 hours of age.
 - ✦ If IgG levels are good, we know the cria absorbed necessary antibodies.
 - ✦ If IgG levels are low, we get critical blood transfusion by Veterinarian.
 - ✦ Insert microchip for positive future identification.

Note:

This chart shows expected net profit based on the value of the animals and sales.

This is based on \$100,000 initial investment.

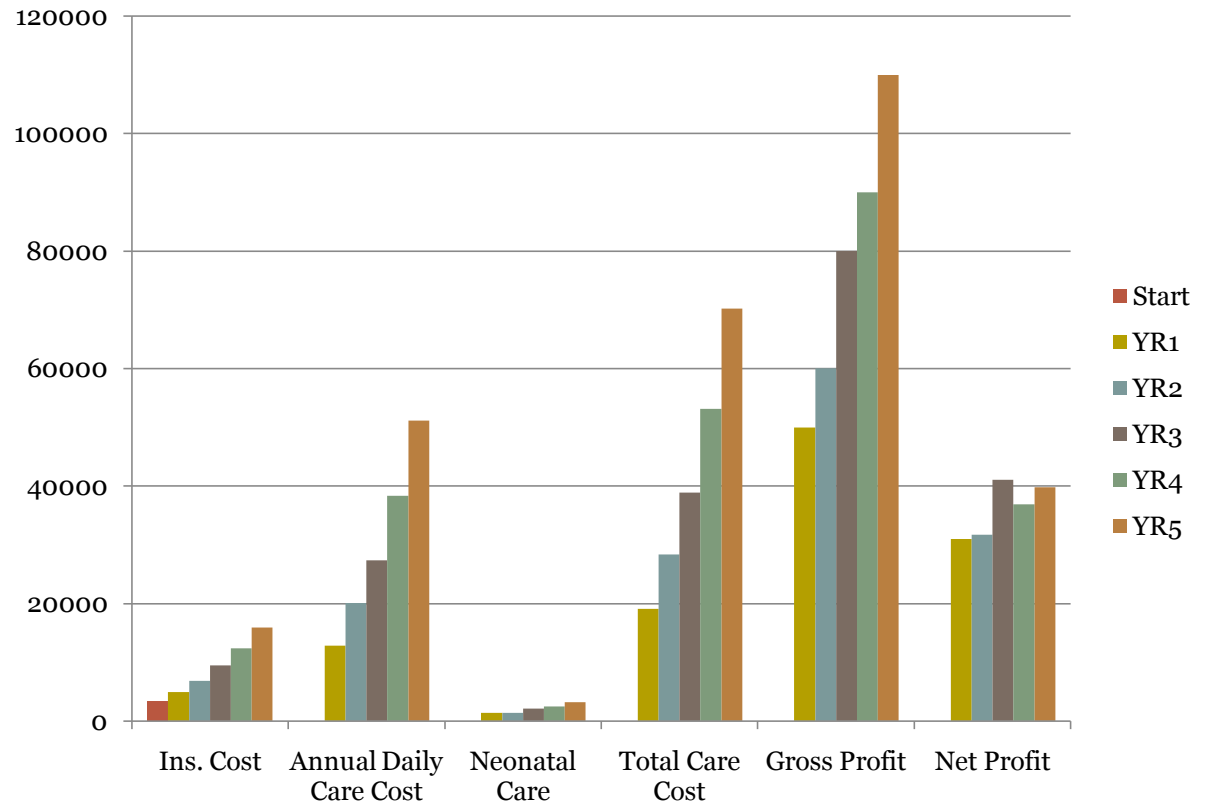

For smaller investments, the chart remains proportionate.

However, there value is only realized upon sale.

You will receive \$50,000 by the end of five years.

Or, depending on sales of your herd . . . You can be paid \$10,000 /year after the second year.

5-YEAR COST & PROFIT

Gestation: 11.5 months

Age to Breed: 14 months

Foundation: 2 male & 10 Female

Avg. Value Female: \$10,000 Value Male: \$1,000 - \$40,000

Male / Female Ratio: 50 / 50

Percent Live Births: 80 %

Re-Breed Period: 12 months

HOW OPTION-2 WORKS

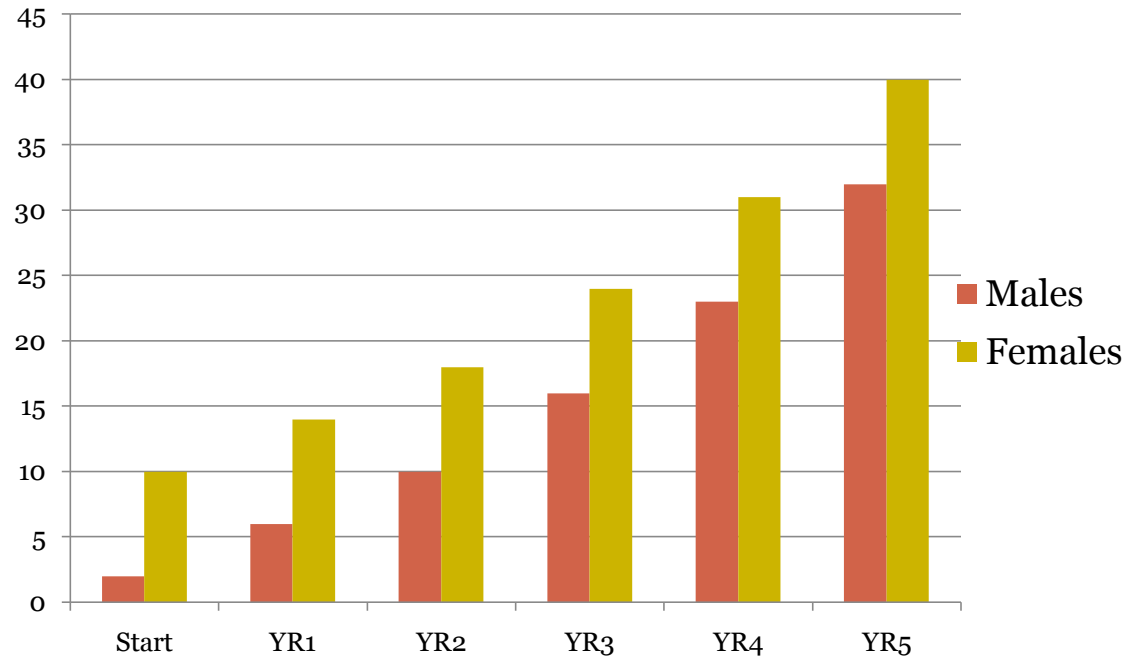

- BREEDING
 - Normal breeding is about two weeks after cria birth.
 - Herdsires
 - ✦ ‘My Sweet Alpaca’ has 100% ownership in two excellent quality males. They are sons of two of the most famous herdsire names in the alpaca industry, “Hemingway” & “Dracula”.
 - Breed with our herdsires for FREE
 - (Hemingway's Ernesto or Go Boy)
 - Buy your own herdsires for breeding
 - Purchase breedings from herdsires at another ranch
 - You would have to pay for transporting to and from our ranch
 - There are small health check fees from the Vet if transporting across state line.

5-YEAR HERD GROWTH

This chart shows the expected increase in herd population over the five year program.

Gestation: 11.5 months

Age to Breed: 14 months

Foundation: 2 male & 10 Female

Avg. Value Female: \$10,000 Value Male: \$1,000 - \$40,000

Male / Female Ratio: 50 / 50

Percent Live Births: 80 %

Re-Breed Period: 12 months

HOW OPTION-2 WORKS

- ALPACA SALES – 10% Commission on Sales
 - ✦ We will strive to help you sell your alpacas through our sources.
 - To accomplish this, we must bring in money. Therefore, all of your animals should have a reasonable price tag on them.
 - The original females will not be sold until after their first cria has been weaned, about 5 months old.
 - To keep care cost down, males that are not herdsire quality, may be gelded and or sold as pets or fiber producers.
 - If they are gelded, their care cost drops to only \$1.50/day until sold.
 - ✦ We will advertise alpaca sales on our websites and at special events.
 - Some of our Option-1 investors will want to take advantage of our 10% Guarantee . . . And might choose some of your alpacas.
 - ✦ You can also spread the word.
 - This will improve your chances of selling more animals.

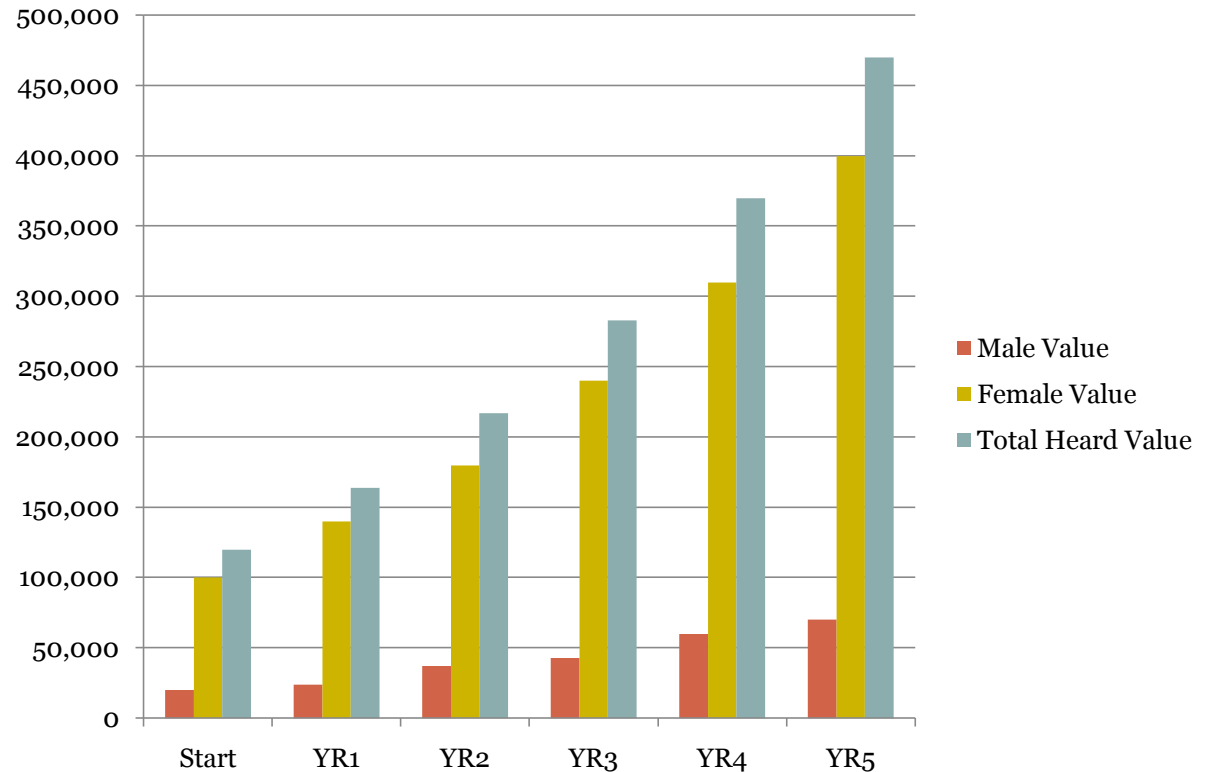

This chart shows the expected increase in herd value over the five year program.

This assumes that the bred females are still selling for \$10,000 each.

The value of the males assumes that one in ten live births will be valued at \$10,000.

The rest are considered pet quality. This is ultra conservative. Some of 'Hemingway's grandsires sold for \$70,000 and more.

5-YEAR HERD GROWTH

Gestation: 11.5 months

Male / Female Ratio: 50 / 50

Age to Breed: 14 months

Percent Live Births: 80 %

Foundation: 2 male & 10 Female

Re-Breed Period: 12 months

Avg. Value Female: \$10,000 Value Male: \$1,000 - \$40,000

HOW OPTION-2 WORKS

- **FLEECE**

- Once a year, in April or May, we will shear the fleece off all alpacas. This is about \$30.00 per alpaca.
- Since you own the animals under Option-2, you are entitled to the luxurious fleece.
 - ✦ We will mail the fleece to you if you wish. Just pay postage.
- We recommend having lab test on fleece, to determine its quality. This test is only about \$8.00 per sample.
 - ✦ We track these numbers on our database and will send you a report on how well your alpacas are doing.
 - ✦ Micron size, standard deviation, crimp, and comfort factor.
- Proper nutrition and care makes a big difference in fleece quality. We pride ourselves for improving fleece quality!
